Having nearly 3 years of experience in software development. I'm a highly motivated and hard-working engineer specializing in Angular 2+, ReactJS, JavaScript and TypeScript. Proficient in creating user interfaces, writing and testing code, troubleshooting simple/complex issues and implementing new features based on user feedback.

Moreover, with the willingness to learn and apply new technology, I have a passion for building flexible and performant web applications. Familiar with Scrum/Agile methodology and working directly with clients, I can make sure to work well in an English communicating environment. I'm also a team player who tends to help others, sees them get better over time, and is efficient in teamwork.
